Nervous De pi i y.

Symptoms. — Dizziness, weariness, with nervous, irresolute feeling, irritability, no energy, loss of memory, despondency and low spirits, trembling; crused by slight excitement, sleeplessness, poor appetite, and, frequently, palpitation. The causes of nervous debility are many: overwork, lack of bodily exercise, insufficient rest and

nourishment, absence of amusement, loss of vitality, etc. The results, however, are the same: poor circulation of blood, impaired digestion, deranged neryous system; the heart loses force, the stomach, liver. kidneys, and bowels fail to perform their functions. This should not be, when a remedy is ever at hand.

The Boles boomers are the first to take possession of Chicago. They have opened headquarters and amnounce that they are in the race for the first place on the ticket. There are a number of dark horses the bosses succeed in setting Cleveland aside. Some of those on the spot are already spreading the report that the ex-President has no chance of carrying New anti-Cleveland men hope to split his

The New York Econing Post denounces the two-thirds rule that prevails in the Democratic convention as a relic of slavery times, it having been adopted to give the slaveholders a veto on any enudidate not committed to their interests, and says if a majority rule prevailed, as it ought to in every assemblage of human beings calling themselves Democrats, Hill would have disappeared as a candidate long since When the contending forces come together in Chicago next week that city will be red

The Aronstonk Times is a Democratic paper, but it is mad over the fraud perpetrated in the District convention by the Bass combination and does not hesitate to express its unind freely on the subject. It says "It was an unsatisfactory meeting which the Democrats of the Fourth District held at Bangor last week. It is charged that fraudulent methods were employed. On the face of the returns Don A. H. Powers, Esq., of Houlton, appeared to have been nominated for Congress, but then, S. D. Leavitt, of fla-tport, bad 181 votes, which was a majority of the convention. So a protest has been filed."

The campaign has not yet opened in this State, but our Democratic friends are already exchanging compliments in a somewhat lively manner. occasion to refer to the row in the Fourth District over the scaling down process in the interest of the Basa-Powers combination, and now the Belfast Age pays its re- Blake, Barrows & Brown. spects to Bass in the following curt

Inshion:
Three out of four of the Democratic District Conventions in Maine Instructed delegates for Cleveland and the other endorsed his administration and himself. The irrepressible and incorrigible Joseph futten-on-the-Maine-Central Bass, of Bangor, is the only district delegate we know of likely to vote against Cleveland in the convention. In fact he is the only delegate from Maine who will probably thus misrepresent his State and district at Chicago. He goes to represent himself and not his people, State or party. With Messrs, Hudson and Hathaway With Messrs. Hudson and Hathaway charging that he owes his election to fraudulent practices, and the Democratic press claiming that he misrepresents the State on the Presidential question, Bass DESIRAB CONTROL RESIDENCE seems to be catching it on all sides.

The Republicans of Bangor will hold their ward canouses this evening to elect delegates to attend the State Convention at Portland next Thesday. The time for the meetings in the several wards is half past seven o'clock, and there should be a large attendance. We hope to see large and representative delegations from all over the State. A full convention gives an impetus to the campaign that will make itself felt throughout the canvass." Maine is a Republican State, but it will not do to leave snything to chance this year. The Democrate have an excellent ntest. They have their eyes upon the glalature and will concentrate their etforts very largely of that part of the ticket, together with the county tickets. It is therefore essential that the Republic cans should be short in over 116 State. If each individual member of the party does Craits y Count or both a grant in the remote the little of the work of the country of the state of the country of the country of the state of the country of the state of the country of the state of the country of t

Praise of Doubtrul A sine. at it and Driver. The Radgor Commercial Steel equility divides its time between laudator; remiring Senator Hale and what it conceives to be extremely sarcastic references to Mr. Boutelle. Like most weak minded people the editor of that paper deludes bluself in the belief that he is ducting a campaign against Mr. Boutelle. The poor creature has been engaged in this sort of a performance ever sin Boutelle was elected to the Forty-eigth Congress, alternating his predictions that our Representative would fail of a nomination with equally the harmless prediction that he was going to be defeated at the pols each succeeding year, but as he has not yet made much headway in his campaign efforts we have no reason to complain Certainly Senator Hale is welcome to a monopoly of the commendation from that source. We notice that the Senator is inclined to scout the idea that the people of the State may decide to send Mr. Blane to the Senate and conclude with the remark that Mr. Blaine's friends are his friends. We doubt, however, if Mr. Blaine counts the Commercial as amon his friends and that paper voluntarily, or otherwise, seems to be principally engaged in conducting Mr. Hale's senatorial canvass.

> Warner Miller Predicts Victory. Blaine's sturdiest supporters at Minneapolis, can e to New York Tuesday evening from his home in Herkimer, where he stopped on his way from the Republican National Convention, to meet his wife. son and ils ughter, who had arrived after a year's at sence in Europe, while the ex-Senator wis at Minneapolis as a delegateat-large. It was their arrival by the City of New York on Wednesday, which caused Mr. Miller to harry homeward before the convention adjourned. "I was naturally auxious to see my family after so long an absence," Mr. Miller said to a Tribune reporter in his rooms at the Fifth Ayenue Hotel last evening, "and as the President was nominated and I could do nothing to make any more certain the choice of Mr. Reid for Vice-Pres. ident, I thought that I could hardly be censured for turning my face homeward. This was a youly reason for leaving the convention when I did. No feeling of disappointment at the result entered into it or had maything to do with it." "Now t at you are at home again, Sen-

ator, what do you think of the outlook?" "There is no cause for despondency | so for as the Republican party and its snecess in the coming campaign are concerned. While the friends of Mr. Blaiue are greatly disappointed at the falure to nominate him, they have already begun to realize that the party is greater than any personal considerations and they heartily acquiesce in the result of the surrention. They will 30 to work for the ticket and help to carry it to success. The lines of battle for the campaign are not yet drawn, and until the Democratic party gets its candidates in the field and constructs its plafotrm it a impossible to tell whom and what we are to meet. Nevertheless, I have no apprehensions about our shility to conquer in the coming fight. The Republican party has put forth a platform and nominated a ticket which ought to win, and wh ch I believe will win.

"The normation of Mr. Reid is a most satisfactory one. It will add strength to the party in only in this State where he is best known, but throughout the conn-

There is no reason why Mr. Harrison should not be stronger to-day thon he was four years ago, and I am satisfied that such is the case. The Republicans are not given to salk og in their tents, and I think that you wil find many of those who opng groomed ready to take the field if Posed the President's renomination among the most earnest and active advocates of his election before the campaign is very old. If Cleve and should be the nomine of the Democrats there is no reason why bank, this being the rock upon which the Mr. Harrison should not defeat him as he did in 1888. Issues will cut a larger figare this year than then. Whoever the Chicago candidate proves to be, Republican principles and candidates ought to triumph, and . believe that they will:"

Why June is a Mouth When the Nerves

WHEN SU MICH COM'S.

are too o'ten Shaky. There is a trouble which comes to most people at this season of the year. It is the result of the change from winter to summer which causes a tired and unstrung

The nerves are shaky the muscles relaxed, and the head is not clear. It has been a popular error to suppose that this is due to a disordered condition of the blood. It is not. It is the result of a bad state of the nerves and of the brain. A very warm duy comes, and the languid feeling shows how nervous, how really would be not.

feeling shows how nervous, how really wank we are
We must do something if we do not wish to become sick. We must build up the nerves, feed the brait, and put ourselves in a proper condition. No ordinary help, no every day concection sarsaparilla cr blood purifier will restore the strength. Something selentific, something oure and powerful and at the same time narmless, is an absolute necessity. There is but one thing known to medical science that answers these conditions, and that is Paine's celery compound. It has toned up more nerves built up more strength and established more health than any other medicine.

any other medicine
The newspapers could name scores of well known men and women, not only in Maine but in other places, who have felt worn, work and weary, but who are now strong and well soleix by the use of Pana, celery compound. This remedy is a hysician a prescription is a pure food for the bialo and nerves, tures sleep-lessness headaches and all disorders of the ne-vous system and purifies the blood in a rational and schutthe manner.
